SLT 2022

The 2022 IEEE Spoken Language Technology Workshop (SLT 2022) will be held on 9th - 12th January 2023 at Doha, Qatar. SLT 2022 will be the first speech conference to have visited the Middle East and the first speech conference to be held in an Arabic speaking nation.

The SLT Workshop is a flagship event of IEEE Speech and Language Processing Technical Committee. The workshop is held every two years and has a tradition of bringing together researchers from academia and industry in an intimate and collegial setting to discuss problems of common interest in Automatic Speech Recognition (ASR) and Spoken Language Understanding.

Topics: We invite papers in all areas of spoken language processing, with emphasis placed on the following topics:

● Automatic speech recognition	● Language processing
● Conversational/multi-speaker ASR	● Spoken document retrieval
● Far-field speech processing	● Speech-to-speech translation
● Speaker and language recognition	● Speech summarization
● Spoken language understanding	● New applications of ASR
● Spoken dialog systems	● Audio-visual/Multimodal speech processing
● Low resource/multilingual	● Emotion recognition from speech
● Text-to-speech systems	

Important Dates:

- Paper submission: July 15, 2022
- Paper Update: July 21, 2022
- Rebuttal period: August 26 - 31, 2022
- Early Registration: October 1, 2022

Program

The workshop program will keep the successful format of previous SLTs and will feature invited talks/keynotes, regular papers and special sessions. In addition, SLT will feature two challenges and a hackathon. A full social program will provide numerous opportunities for discussion, social events and sessions to bring together students, researchers from the local speech community.
