

# MICRO RAD 2016

*Espoo*

## 14th Specialist Meeting on Microwave Radiometry and Remote Sensing of the Environment

April 11-14, 2016  
Aalto University, Espoo, Finland

### Local Organizing Committee

Martti Hallikainen (General Chair)  
*Aalto University, Finland*  
Jaan Praks (Technical Chair)  
*Aalto University, Finland*  
Jaakko Seppänen  
*Aalto University, Finland*  
Juha Kainulainen  
*Harp Technologies Ltd., Finland*  
Jari J. Hänninen  
*Aalto University, Finland*  
Sari Haapiainen-Laine  
*Aalto University, Finland*  
Kati Gustafsson  
*Aalto University, Finland*

### Steering Committee

Shannon Brown  
*Jet Propulsion Laboratory, USA*  
Paolo Ferrazzoli  
*University of Rome Tor Vergata, Italy*  
Leila Guerriero  
*University of Rome Tor Vergata, Italy*  
David Kunkee  
*The Aerospace Corporation, USA*  
Roger H. Lang  
*The George Washington University, USA*  
David M. Le Vine  
*NASA Goddard Space Flight Center, USA*  
Giovanni Macelloni  
*CNR/IFAC, Italy*  
Frank Marzano  
*University of Rome La Sapienza, Italy*  
Simonetta Paloscia  
*CNR/IFAC, Italy*  
Paolo Pampaloni  
*CNR/IFAC, Italy*  
Nazzareno Pierdicca  
*University of Rome La Sapienza, Italy*  
Steven C. Reising  
*Colorado State University, USA*  
Domenico Solimini  
*University of Rome Tor Vergata, Italy*  
Calvin T. Swift  
*University of Massachusetts, USA*  
Jothiram Vivekandanan  
*NCAR, USA*  
Ed R. Westwater  
*University of Colorado, USA*

The MicroRad Specialist Meeting, organized alternately in Italy and the United States since 1983, provides an international forum for scientists and engineers to report and discuss recent theoretical and experimental results in the field of microwave radiometer techniques and applications. Aalto University is honored to organize the 14th MicroRad in Espoo, Finland.

Suggested topics include, but are not limited to:

- Theory, physical principles and EM models
- Soil moisture, soil state and vegetation
- Snow, ice and oceans
- Clouds and precipitation
- Temperature and humidity sounding
- Climate and global change
- Advanced radiometer techniques
- Sensor calibration
- Combined active/passive instruments
- Current and future satellite missions
- Small satellite instruments and missions
- UAVs for remote sensing
- Experimental campaigns
- RFI and spectrum management
